

Italic Magic

The Italic Hand is a versatile, dynamic style that can convey a multitude of moods and ideas. This series of classes will focus, first and foremost, on the basic structure and refining of the letters themselves. Secondly, we will use them to convey meaning to our words and thoughts.

A variety of assignments will experiment in using Italic lettering with specific formats and/or techniques. These may include unusual layouts, collage, textures, shapes, dimensional, and more as time permits.

Newbies will be allowed to produce simplified versions of the assignments in order to focus on developing their lettering skills.

The resulting collection of exercises will be a resource of ideas for future works. Hopefully, it will be an inspiration to continue and further the creative spark.

WHEN:

Saturdays, 1:00 to 3:00 pm
Sept 9, 16, 23, 30, 2017
Oct 7, 14, 21, 28, 2017
